Baseline Custom Fabricating Ltd.
1041 Trulls Road.
Courtice, Ontario
L1E 2S9

Attention: Mr. Marcel Zwetsloot

Dear Marcel,

Please accept my apology, as this letter is long overdue.

I am writing to thank and compliment you for your firm's contribution to the success of the Ajax Steam Plant Revitalization-Index Energy Project.

Both you and your company have proven your ability to provide fabrication, specialty painting and on-site contractor installation expertise, from detailed components through large complex fabrications.

Your professionalism, responsiveness and price competitiveness have made your company an important asset and key supply chain partner. In short, when we deal with you and your team, we know that you will get the job done on time and in spec as required.

Marcel, in appreciation of the excellent work that you have carried out on our behalf, I would like to offer this letter as a recommendation to others that may be considering doing business with you.

We continue to use Baseline as a regular resource, and I'm pleased to recommend them as results oriented professionals with a strong work ethic, pleasant to get along with, dedicated to excellence and customer service. They are an effective asset and working with them will be a positive experience for all concerned.

If any of your potential clients require further details on our very positive experience in using your services I would be happy to do so.

Sincerely Yours,

A handwritten signature in blue ink, appearing to read 'Arnold Helbert', is written over a light blue horizontal line.
